• Database : MS SQL Server, My SQL Server

• IDE: Microsoft Visual Studio, Visual Studio Code, Boomerang, Postman

• Operating System: Windows 7, Windows 8, Windows 10

PERSONAL PROJECTS

<https://agents.akbartravelsonline.com>

- B2B portal lets you manage your business (flight booking at GDS and LCC, Rail booking, Bus, Hotel, Insurance etc) both directly and sub-agent login. It provides easy interface for the users to gather information and understand the functioning such as availability, pricing, travel itinerary and booking. And also there is an administration portal which can also manage the main portal. The portal uses Web connect plus, a Web service technology-driven dot net engine. The Web connect plus allows agents to connect to the online Web server from their own Web pages and perform search, book and cancel operations over Internet.
- IRCTC API based B2B rail tourism service API API service layer that communicates IRCTC APIs and Agent Portal end.
- IRCTC API-based B2B rail portal Frontend web portal development using Angular (Not Yet launched)
